General Notes	RATING: IMS - TP CLASS Carbon Composite
Final Notes	2005 3rd generation TP 52, built by Goetz and currently racing in the Mediterranean Circuit. Atalanti XV is the most recent TP 52 design development by Farr Yacht Design offering hull shape refinement and optimized beam, optimized appendages, foils and bulb, as well as refined deck layout and construction. Atalanti XV is the result of first hand experience of the design team sailing on previous designs for the past year. While intended for buoy racing, Atalanti XV's sister ship Pegasus has proven to be very capable offshore. ATALANTI represents the very latest Farr designed in the TP 52 class. She has clearly shown to be very fast with several first place finishes while class racing.
