Slogan	.
General Notes	She was built in Australia in 1998, shipped to Scotland where she has always been dry-sailed. She has all the toys to race her around the cans. On the other hand she's a great family rocketeer, spacious down below and with her enormous cockpit ideal for cruising. Further she's in good condition and well maintained. She's constructed from foam sandwich with vinylester resin. A combination of Kevlar and E-glass is used throughout the hull and deck. This makes her extremely strong and bullet proof. For ease of use when racing as well as sailing shorthanded she's equipped with an alloy 3 spreader masthead rig with 143% overlapping jibs. Hull colour grey, 2 waterline black stripes, white bottom and deck.
