GENERAL

Final Notes	<p>The TP52 is a simple racing machine.</p> <p>No moving parts under water other than a single centreline rudder, no complicated issues on deck or in the rig.</p> <p>Just high quality components allowing proper control of the boat and of a sails wardrobe build for optimum performance at every windangle and windspeed.</p> <p>The interior is the minimum required by the Safety Regulations and TP52 Rule.</p> <p>TP52's are true Grand Prix Racers, so designed and build to withstand the abuse of yacht racing at the highest level, but not overbuilt and thus ensuring excellent performance.</p> <p>Once you get a chance to sail these magnificent machines and you join the game wherever it is played you will realise why so many before you choose for the TP52.</p>
