General Notes	This is a customized X119 as she has a steering wheel built in. A very nice X-Yacht! The X-119 is a continuation of X-Yachts existing range of NON IOR One Design i.e. X-79(8 metres) and X-99(10 metres). Almost 750 of these have been built, racing successfully worldwide, with the X-99 proving that a fast racer can also be cruised. The X-119, LOA 39+ft. has been carefully designed down to the last detail. The rig is over specified to carry the large main and sail areas. The tracks and winches are easily operated. The many trim positions provide optimum speed and performance in all weather and sea conditions. The cockpit layout satisfies both the cruising family and efficient working conditions for the racing crew.
