Tel.: (+34) 934 186 632 Mobile: (+34) 616 420 634 E-Mail: info@cruiser-racer.com

SPARS & RIGGING	
Mast	3 spreader mast
Spinnaker Pole	Carbon spinaker pole
Tuff Luff	yes
Notes	

CONSTRUCTION	
Notes	Construction For the building of the boat conventional building materials are used as much as
	possible. For the hullshell a thick foamcore has been used for panel stiffness. The internal frame is completely built out of glass/ carbon fibre and glued into place. The steel keelfin slots into a recess in the hull and with the keelbolts as well as with the mainchainplate bolts also a mechanical fastening is achieved between hull shell and interior liner. The boat consists basically out of four pieces. Hull, deck, interiorliner and a ceiling liner.

ACCOMODATIONS	
Berths Number	6
Bath Shower	Yes
Notes	While the aim was to create a fast yacht the designer did not want the MaxFun to be an empty boat inside. The internal frame is visible throughout the boat but by
	making the moulding in a dark colour and with a spickle coating it already will look vastly different from what we are used to. The hull sides are finished off in alcantara look alike lightweight panels and with removable leather seats and wooden floor panels the boat has a warm feeling inside. On starboard side is the nav. table with space for a notebook and electronics. Two aluminium pipecots can be installed in the bow Two aluminium pipecots can be installed in the bow

	EXTRA NOTES
Radio Cd	Radio CD player with outside speakers
