BROKER'S COMMENT: .

DESCRIPTION:

A fantastic 40 footer designed by Marcelino Botin and Shaun Carkeek. A cruiser racer that combines high performance with a really comfortable cruiser philosophy. The boat has the hull and rigging from the Sinerga 40 but with a special full lead keel, optimized for the modern IMS rule. This also gives a good rating under IRC. The higher stability it gives to the boat is favorised by the IMS rule since 2004, and will be even more favorised in the 2006 rule. This is a competition boat and no compromises have been taken. Aimed at the motivated owner and crew who wish to compete seriously, have fun and win without losing or costing a fortune. The equipment is of the best quality and the mast with double spreader is proportioned to have powerful performance and complete control.
